

PRESS RELEASE

FOR IMMEDIATE RELEASE

July 27, 2021

Corporate Update – UNESCO Inscription of Roșia Montană

Gabriel Resources Ltd. (TSXV trading symbol GBU - “**Gabriel**” or the “**Company**”) notes that Romania’s request to list Roșia Montană as a UNESCO World Heritage Site was approved by UNESCO's World Heritage Committee on July 27, 2021 at its 44th session in Fuzhou, China. Accordingly, the “Roșia Montană Mining Cultural Landscape”, an area covering the footprint of Gabriel’s gold and silver project at Roșia Montană (“**Project**”), has been inscribed by UNESCO (the United Nations Educational, Scientific and Cultural Organization) on its World Heritage List (“**Inscription**”) and added to its List of World Heritage in Danger.

As previously disclosed, in February 2020, the Romanian government reactivated the procedure to list the “Roșia Montană Mining Cultural Landscape” as a UNESCO World Heritage site (“**UNESCO Application**”), an initiative that was started in February 2016 but subsequently postponed at the request of the Romanian government pending completion of the ongoing ICSID arbitration claim brought by Gabriel against Romania (“**ICSID Arbitration**”).

The UNESCO Application was strongly opposed by the local communities in and around Roșia Montană, a fact that has been publicly acknowledged by Romanian government ministers. Moreover, such application and the Inscription are fundamentally incompatible with the rights the Gabriel group acquired to develop the Project and the continued existence of an exploitation mining license for the Project area. These acts, promoted by the Romania government, ignore the existing and valid decisions of the Romania’s Ministry of Culture removing the vast majority of the Project area’s status as a protected archaeological site and clearing the area for mining activities. Furthermore, most of the cultural heritage for which protection is sought through the UNESCO Application and which was identified by the extensive archaeological research programs funded by Gabriel, would have been protected in any event by the Project irrespective of the Inscription.

Despite the pursuit of the ICSID Arbitration, Gabriel has repeatedly confirmed its desire to reach an amicable resolution that would allow for the development of the Project, as well as the advancement of the rights acquired in connection with the promising Bucium mineral deposits. Gabriel believes that permitting the Project, a carefully planned, sustainable and modern mining development, would have been the best way to safeguard the significant cultural heritage of the Roșia Montană area and to clean-up the vast environmental pollution that besieges Roșia Montană’s landscape today as a consequence of unregulated historical State mining. The Project would have also generated tremendous economic benefits for Romania and its citizens and thousands of much needed jobs.

To this end, the Company strongly urged the Romanian government not to follow through with the UNESCO Application in order to preserve the possibility of an eventual amicable resolution of the ICSID Arbitration dispute - the Inscription materially undermines that possibility.

The UNESCO Application and Inscription are fundamentally at odds with Romania's obligations under its investment treaties in relation to Gabriel's investments and these acts, together with other measures taken by Romania, further evidence Romania's political decision not to permit the Project under any circumstance.

About Gabriel

Gabriel is a Canadian resource company listed on the TSX Venture Exchange. The Company's principal business had been the exploration and development of the Roşia Montană gold and silver project in Romania. The Roşia Montană Project, one of the largest undeveloped gold deposits in Europe, is situated in the South Apuseni Mountains of Transylvania, Romania, an historic and prolific mining district that since pre-Roman times has been mined intermittently for over 2,000 years. The exploitation license for the Roşia Montană Project ("License") is held by Roşia Montană Gold Corporation S.A., a Romanian company in which Gabriel owns an 80.69% equity interest, with the 19.31% balance held by Minvest Roşia Montană S.A., a Romanian state-owned mining company.

Upon obtaining the License in June 1999, the Group focused substantially all of their management and financial resources on the exploration, feasibility and subsequent development of the Roşia Montană Project. Despite the Company's fulfilment of its legal obligations and its development of the Roşia Montană Project as a high-quality, sustainable and environmentally-responsible mining project, using best available techniques, Romania has unlawfully blocked and prevented implementation of the Roşia Montană Project without due process and without compensation. Accordingly, the Company's current core focus is the ICSID Arbitration. For more information please visit the Company's website at www.gabrielresources.com.
