FOR IMMEDIATE RELEASE

December 13, 2018

US\$20 Million Private Placement

Gabriel Resources Ltd. ("Gabriel" or the "Company") is pleased to announce that it has entered into definitive subscription agreements with certain existing securityholders in connection with a non-brokered private placement (the "Private Placement") of up to 106,425,846 units (the "Units") of the Company at a price of \$0.2475 per Unit ("Purchase Price") for gross proceeds of up to US\$20 million (approximately \$26.3 million), subject to stock exchange and other approvals as applicable.

Each Unit will consist of one common share ("Common Share") of the Company ("New Shares") and one Common Share purchase warrant ("New Warrants"). The Purchase Price represents a 25% discount to the closing price of the Common Shares on the trading day immediately preceding this announcement of \$0.33 ("Market Price"). Each New Warrant will entitle the holder to acquire one Common Share at an exercise price of \$0.49, representing a premium of approximately 50% to the Market Price, at any time prior to the date that is five (5) years following the closing of the Private Placement.

The aggregate number of Common Shares to be issued pursuant to the Private Placement (assuming exercise of all of the New Warrants) is 212,851,692, representing approximately 55.4% of the Common Shares currently issued and outstanding on a non-diluted basis.

It is anticipated that insiders of the Company will subscribe for up to 55,213,059 Units for gross proceeds of US\$10.37 million under the Private Placement. The issuance of Units to insiders pursuant to the Private Placement will constitute a "related party transaction" within the meaning of TSX Venture Exchange Policy 5.9 and Multilateral Instrument 61-101 Protection of Minority Security Holders in Special Transactions ("MI 61-101").

The Company intends to rely on the "financial hardship" exemption from the minority shareholder approval requirement available under Section 5.7(1)(e) of MI 61-101 in respect of such insider participation. Accordingly, "independent directors" of the Company, as defined in MI 61-101, have reviewed and approved the terms of the proposed Private Placement and, after careful consideration, determined that the Company is in serious financial difficulty, the Private Placement is designed to improve the financial position of the Company, and the terms of the Private Placement are reasonable in the circumstances of the Company.

The closing of the Private Placement is subject to certain conditions, including, but not limited to, the approval of the TSX Venture Exchange and the receipt of all other applicable approvals. Accordingly, there is no assurance that the Company will be successful in completing the Private Placement. On receipt of approvals it is anticipated that the Private Placement may close on or about December 31, 2018 or such earlier or later date as may be determined by the Company subject to satisfaction or waiver by the relevant party of the conditions of closing.

The securities being issued pursuant to the Private Placement will be subject to a hold period expiring four months and one day from the date of issuance in accordance with applicable Canadian securities law.

The Company is progressing with its arbitration case against Romania before the World Bank's International Centre for Settlement of Investment Disputes ("ICSID Arbitration") and intends to use the proceeds of the Private Placement to finance the costs of the ongoing ICSID Arbitration and for general working capital requirements.

The Company expects to file a material change report in respect of the related party transaction less than 21 days prior to the closing of the Private Placement, which the Company deems reasonable in the circumstances so as to be able to avail itself of the proceeds of the Private Placement in an expeditious manner.

The securities described herein have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act") or any state securities laws and accordingly may not be offered or sold within the United States or to "U.S. persons", as such term is defined in Regulation S promulgated under the U.S. Securities Act ("U.S. Persons"), except in compliance with the registration requirements of the U.S. Securities Act and applicable state securities requirements or pursuant to exemptions therefrom. This news release does not constitute an offer to sell or a solicitation of an offer to buy any of the Company's securities to, or for the account of benefit of, persons in the United States or U.S. Persons.

Further Information

About Gabriel

Gabriel is a Canadian resource company listed on the TSX Venture Exchange. The Company's principal focus has been the exploration and development of the Roşia Montană gold and silver project in Romania ("Roşia Montană Project"). The Roşia Montană Project, one of the largest undeveloped gold deposits in Europe, is situated in the South Apuseni Mountains of Transylvania, Romania, an historic and prolific mining district that since pre-Roman times has been mined intermittently for over 2,000 years. The exploitation license ("License") for the Roşia Montană Project is held by Roşia Montană Gold Corporation S.A., a Romanian company in which Gabriel owns an 80.69% equity interest, with the 19.31% balance held by Minvest Roşia Montană S.A., a Romanian state-owned mining company. It is anticipated that the Roşia Montană Project would bring over US\$24 billion (at US\$1,200/oz gold) to Romania as potential direct and indirect contribution to GDP and generate thousands of employment opportunities.

Upon obtaining the License in June 1999, the Group (as defined below) focused substantially all of their management and financial resources on the exploration, feasibility and subsequent development of the Roşia Montană Project. Despite the Company's fulfilment of its legal obligations and its development of the Roşia Montană Project as a high-quality, sustainable and environmentally-responsible mining project, using best available techniques, Romania has blocked and prevented implementation of the Roşia Montană Project without due process and without compensation. Accordingly, the Company's current core focus is the ICSID Arbitration. For more information please visit the Company's website at www.gabrielresources.com.

Forward-looking Statements

This press release contains "forward-looking information" (also referred to as "forward-looking statements") within the meaning of applicable Canadian securities legislation. Forward-looking statements are provided for the purpose of providing information about management's current expectations and plans and allowing investors and others to get a better understanding of the Company's operating environment. All statements, other than statements of historical fact, are forward-looking statements.

In this press release, forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company at this time, are inherently subject to significant business, economic and competitive uncertainties and contingencies that may cause the Company's actual financial results, performance, or achievements to be materially different from those expressed or implied herein. Some of the material factors or assumptions used to develop forward-looking statements include, without limitation, the uncertainties associated with: the ICSID Arbitration, actions by the Romanian Government, conditions or events impacting the Company's ability to fund its operations (including but not limited to the completion of further funding noted above) or service its debt, exploration, development and operation of mining properties and the overall impact of misjudgments made in good faith in the course of preparing forward-looking information.

Forward-looking statements involve risks, uncertainties, assumptions, and other factors including those set out below, that may never materialize, prove incorrect or materialize other than as currently contemplated which could cause the Company's results to differ materially from those expressed or implied by such forward-looking statements. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, identified by words or phrases such as "expects", "is expected", "is of the view", "anticipates", "believes", "plans", "projects", "estimates", "assumes", "intends", "strategy", "goals", "objectives", "potential", "possible" or variations thereof or stating that certain actions, events, conditions or results "may", "could", "would", "should", "might" or "will" be taken, occur or be achieved, or the negative of any of these terms and similar expressions) are not statements of fact and may be forward-looking statements.

Numerous factors could cause actual results to differ materially from those in the forward-looking statements, including without limitation:

- delay or extension to the duration of the ICSID Arbitration;
- required disclosure, costs, process and outcome of the ICSID Arbitration against Romania;
- changes in the liquidity and capital resources of Gabriel, and the group of companies of which it is directly or indirectly parent ("Group");
- access to funding to support the Group's continued ICSID Arbitration and/or operating activities in the future;
- equity dilution resulting from the conversion or exercise of new or existing securities in part or in whole to Common Shares;
- the ability of the Company to maintain a continued listing on the TSX Venture Exchange or any regulated public market for trading securities;
- the impact on business strategy and its implementation in Romania of: unforeseen historic acts of corruption, uncertain fiscal investigations; uncertain legal enforcement both for and against the Group and political and social instability;
- regulatory, political and economic risks associated with operating in a foreign jurisdiction including changes in laws, governments and legal regimes and interpretation of existing and future fiscal and other legislation;
- volatility of currency exchange rates, metal prices and metal production;
- the availability and continued participation in operational or other matters pertaining to the Group of certain key employees and consultants; and
- risks normally incident to the exploration, development and operation of mining properties.

This list is not exhaustive of the factors that may affect any of the Company's forward-looking statements.

Investors are cautioned not to put undue reliance on forward-looking statements, and investors should not infer that there has been no change in the Company's affairs since the date of this press release that would warrant any modification of any forward-looking statement made in this document, other documents periodically filed with or furnished to the relevant securities regulators or documents presented on the Company's website. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by this notice. The Company disclaims any intent or obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of assumptions or factors, whether as a result of new information, future events or otherwise, subject to the Company's disclosure obligations under applicable Canadian securities regulations. Investors are urged to read the Company's filings with Canadian securities regulatory agencies which can be viewed online at www.sedar.com.
