## PRESS RELEASE

FOR IMMEDIATE RELEASE

August 9, 2022

### 2022 Second Quarter Report

Gabriel Resources Ltd. (TSXV:GBU - “**Gabriel**” or the “**Company**”) announces the publication of its Second Quarter Financial statements and Management’s Discussion and Analysis Report for the period ended June 30, 2022.

#### Summary

- Gabriel and its wholly-owned indirect subsidiary, Gabriel Resources (Jersey) Ltd. (together “**Claimants**”), remain focused on concluding their arbitration case against the Romanian State (“**Respondent**”) under the rules of the International Centre for Settlement of Investment Disputes (“**ICSID**”), part of the World Bank (“**ICSID Arbitration**”). The ICSID Arbitration case is well advanced.
  - In April 2022, the arbitral tribunal (“**Tribunal**”) issued a limited list of further questions to the Claimants and Respondent (together “**Parties**”), with the purpose of having a complete record when it concludes its deliberations on the case as a whole and prepares the arbitral award (“**Award**”). The Claimants submission responding to the Tribunal’s questions was filed on June 14 and the Respondent submission is due to be filed on September 19, 2022.
  - Notwithstanding the Tribunal’s statement in December 2021 that it was deliberating and would render an Award in 2022, it has reserved the right to introduce further procedural steps and there is no specified timeframe in the ICSID Rules applicable to this case in which an Award is to be made by the Tribunal.
- In November 2021, an agreement was concluded for the sale of the remaining mining equipment owned by the Gabriel group (“**Group**”) for US\$1.75 million (approx. \$2.2 million) and instalments totaling US\$1.375 million have been received to the end of the second quarter of 2022, with additional monthly instalments due until September 2022.
- In February 2022, an agreement was concluded for the sale of certain land and buildings owned by the Group in Alba Iulia, Romania for EUR 1 million (approx. \$1.45 million), and the final payment of EUR 250,000 was received on April 19, 2022.
- The net loss for the second quarter of 2022 was \$2.8 million (Q1 2022 \$0.9 million).
- On June 29, 2022, the Company announced that it had closed a non-brokered private placement (the “**2022 Private Placement**”) of 33,105,117 common shares of the Company (“**Common Shares**”) at a price of \$0.215 each for gross proceeds of US\$5.6 million (approximately \$7.1 million).
- As at June 30, 2022, the Company held \$8.5 million of cash and cash equivalents (Q1 2022 \$2.3 million). The Company believes that it has sufficient funding necessary to cover its planned activities through to April 2023 and will need to raise additional financing thereafter to fund ICSID Arbitration costs and working capital requirements.

Dragos Tanase, Gabriel’s President and Chief Executive Officer, stated:

“We have filed what we hope will be our last substantive written submission to be made in the ICSID Arbitration and our goal is to continue to assist the Tribunal where we can to meet its previous indication of the issue of its Award within 2022. We remain extremely thankful for the continued support and funding provided by our shareholders as the ICSID Arbitration process continues.”

## Further Information

### Status of the ICSID Arbitration

- The ICSID Arbitration seeks compensation for all of the loss and damage suffered by the Claimants resulting from the Respondent's wrongful conduct and its breaches of the protections afforded by certain treaties for the promotion and protection of foreign investment to which Romania is a party, including against expropriation, unfair and inequitable treatment, discrimination and other unlawful treatment in respect of the Roşia Montană gold and silver project, together with the gold, silver and porphyry copper deposits defined in the Bucium concession area ("**Projects**") and related licenses.
- In late December 2021, the President of the Tribunal stated that the Tribunal was currently deliberating and would render an Award in 2022.
- In January 2022, the Tribunal further confirmed to the Parties that the Tribunal had been thoroughly reviewing the case file and deliberating over the past months and would continue to do so.
- In April 2022, the Tribunal informed the Parties that it had held numerous deliberations in order to reach a decision on the claims and defenses in the matter and had concluded that there were certain aspects of the case for which it required further information. Therefore, the Tribunal issued a limited list of further questions to the Parties, with the purpose of having a complete record when it concludes its deliberations on the case as a whole and prepares the Award. The Claimants filed a submission responding to the questions on June 14, 2022 with a submission required to be filed by September 19, 2022 for the Respondent. The Tribunal also reserved the possibility of an additional round of submissions by the Parties on the questions if it considered the same to be necessary following its review of the first round of pleadings.
- Notwithstanding the Tribunal's statement that it would render an Award in 2022, there is no specified timeframe in the ICSID Rules applicable to this case in which an Award is to be made by the Tribunal. Furthermore, an additional procedural step may be required by the Tribunal prior to the issuance of an Award. Any Award may be subject to a request for annulment (albeit such annulment application can only be made on very limited grounds under the ICSID Rules).

### UNESCO World Heritage

- On July 27, 2021, the Roşia Montană mining landscape was inscribed on the UNESCO World Heritage List and List of World Heritage in Danger ("**Inscription**"). The Inscription is fundamentally incompatible with the rights the Group acquired to develop the Project and the continued existence of an exploitation mining license for the Project area and materially undermines the possibility of an amicable resolution of the dispute with Romania that would allow for the development of the Project.
- Romania's application to UNESCO and the subsequent Inscription are fundamentally at odds with Romania's obligations under its investment treaties in relation to Gabriel's investments and these acts, together with other measures taken by Romania, further evidence Romania's political repudiation of the Project and its joint venture with Gabriel.

### Liquidity

- Cash and cash equivalents at June 30, 2022 were \$8.5 million.

- The Company's average monthly cash usage during Q2 2022 was \$0.3 million (Q1 2022: \$0.3 million), primarily reflecting the consistent level of ongoing operational cost and limited ICSID Arbitration activity quarter on quarter, offset by cash receipts from the sale of land at Recea and long lead-time equipment noted below.
- At June 30, 2022, accruals for costs in respect of the ICSID Arbitration amounted to \$4.4 million (Q1 2022: \$3.7 million), reflecting the continuation of a fee agreement in respect of the deferred payment of certain ICSID Arbitration costs until an Award is issued and the costs of the submission filed in the quarter.

### **Sale of Long Lead Time Equipment ("LLTE")**

- As previously announced, on November 1, 2021 Roșia Montană Gold Corporation S.A. ("**RMGC**"), Gabriel's 80.69%-owned Romanian subsidiary, concluded an agreement with a buyer for an instalment-based purchase of the remaining LLTE for aggregate gross proceeds of US\$1.75 million (approx. \$2.2 million). Aggregate payments of US\$1.375 million (approx. \$1.75 million) were received prior to June 30, 2022 together with an aggregate contribution to storage costs of US\$90,000 (approx. \$115,000) payable monthly from April 2022 in accordance with the sale and purchase agreement. Further instalments and storage cost contributions remain due in the period to September 2022 and the LLTE will remain on the balance sheet of the Company until the final payment is made, when ownership and title to the assets will pass to the purchaser.

### **Sale of Land at Recea**

- On February 25, 2022, RMGC concluded a definitive sale and purchase agreement for the sale of 93 plots of land covering a total area of 68,229 sqm and a small number of buildings owned by RMGC as part of the housing construction undertaken in the Recea resettlement neighborhood of Alba Iulia ("**Recea Land**"). The agreed sale price was EUR 1,000,000 (approx. \$1.45 million) and the final instalment of EUR 250,000 was received on April 19, 2022.

### **Capital Resources**

#### ***Private Placement***

- On June 29, 2022, the Company announced it had closed the 2022 Private Placement of 33,105,117 Common Shares at a price of \$0.215 each for gross proceeds of US\$ 5.6 million (approximately \$ 7.1 million). The Company will use the proceeds from the 2022 Private Placement to finance the ongoing costs of the ICSID Arbitration and for general working capital requirements.

#### ***Future Financing Requirements***

- The Company believes that, taking into account the fee agreement in respect of the deferral of payment of certain ICSID Arbitration costs and the proceeds receivable from the sale of the LLTE, it has sufficient cash to enable the Group to fund general working capital requirements together with the material estimated costs associated with the Company advancing the ICSID Arbitration through to April 2023.
- At that time Gabriel may still await an Award from the Tribunal, as there can be no assurances that the ICSID Arbitration will advance in a customary or predictable manner or be completed or settled within any specific or reasonable period of time and further procedural steps may be required to be completed prior to the issuance of an Award.
- Accordingly, post April 2023 the Group will require further funding in order to pursue the long-term activities required to see the ICSID Arbitration through to its conclusion (which may include, as appropriate, costs of any potential annulment proceedings and/or costs of enforcement of any Award) and for general working capital purposes, including to preserve its remaining assets, including the exploitation license for the Roșia Montană Project ("**License**") and associated rights and permits.
- Notwithstanding the Company's recent and historic funding, there is a risk that sufficient additional financing may not be available to the Company on acceptable terms, or at all. The market and timing of such additional financing could also be adversely affected by the effects of COVID-19 and the Russia-Ukraine conflict, discussed below.

## Financial Performance

- Operating loss for the second quarter of 2022 was \$2.8 million, some \$0.5 million lower than the corresponding period in 2021 primarily arising from (i) \$0.2 million lower costs related to the ongoing ICSID Arbitration, reflecting the more limited activities in the Q2 2022, whereas comparable costs in 2021 reflect certain costs related to the preparation of Post-Hearing Briefs; (ii) \$0.1m lower LLTE storage costs; and (iii) \$0.3 million lower costs related to corporate, general and administration; offset by a \$0.1m increase in share-based compensation.
- The net loss for the second quarter of 2022 was also \$2.8 million, a decrease of \$3.3 million from a loss of \$6.1 million in the corresponding period in 2021, primarily reflecting the \$0.5 million lower operating loss together with \$2.7 million finance costs incurred in respect of convertible notes in 2021 not repeated following their repayment in June 2021.

## Impact of Coronavirus

- With respect to the ongoing coronavirus (COVID-19) pandemic, Gabriel continues to consider carefully its impact, noting the continuing disruption to normal activities and the uncertainty over the duration of this disruption. The highest priority of the Board of Directors and Management is the health, safety and welfare of the Group's employees and contractors.
- Gabriel recognizes that the situation is extremely fluid and is monitoring the relevant recommendations and restrictions on work practices and travel. At this time, these recommendations and restrictions do not significantly impact Gabriel's ability to continue the ICSID Arbitration process or conduct the limited operations in Romania, nor has there been a significant impact on the Group's results or operations through 2022 to date.
- Gabriel will react to circumstances as they arise and will make the necessary adjustments to the work processes required. Should any material disruption from COVID-19 affect the Group for an extended duration, Gabriel will review certain planned activities in Romania and take remedial actions if it is determined to be necessary or prudent to do so.

## Russia-Ukraine Conflict

- Given, amongst other things, the geographical proximity of Romania to Ukraine, Gabriel is closely monitoring the situation in Ukraine with concern for all those who are impacted by the unfolding conflict and humanitarian crisis.
- At this time, Gabriel has not experienced any material disruption to its operations, including its limited activities in Romania, as a consequence of the Russia-Ukraine conflict and the Group will continue to operate its business in accordance with the circumstances that arise, which currently remain highly uncertain.

## About Gabriel

Gabriel is a Canadian resource company listed on the TSX Venture Exchange. The Company's principal business had been the exploration and development of the Roşia Montană gold and silver project in Romania. The Roşia Montană Project, one of the largest undeveloped gold deposits in Europe, is situated in the South Apuseni Mountains of Transylvania, Romania, an historic and prolific mining district that since pre-Roman times has been mined intermittently for over 2,000 years. The exploitation license for the Roşia Montană Project is held by Roşia Montană Gold Corporation S.A., a Romanian company in which Gabriel owns an 80.69% equity interest, with the 19.31% balance held by Minvest Roşia Montană S.A., a Romanian state-owned mining company.

Upon obtaining the License in June 1999, the Group focused substantially all of their management and financial resources on the exploration, feasibility and subsequent development of the Roşia Montană Project. Despite the Company's fulfilment of its legal obligations and its development of the Roşia Montană Project as a high-quality, sustainable and environmentally-responsible mining project, using best available techniques, Romania has unlawfully blocked and prevented implementation of the Roşia Montană Project without due process and without compensation. Accordingly, the Company's current core focus is the ICSID Arbitration. For more information please visit the Company's website at [www.gabrielresources.com](http://www.gabrielresources.com).
